

Heart Failure — Clinical Case Worksheet · ورقة عمل الحالة

Work any HF patient through these prompts before deciding. [printable](#)

- What is the patient's baseline?
- What changed?
- Which findings suggest congestion?
- Which findings suggest poor perfusion?
- What is the most likely trigger?
- What additional assessment is needed now?
- What is the nursing priority?
- Which prescribed interventions should you expect?
- What response would show improvement?
- What adverse effects / complications must be monitored?
- What would make you escalate immediately?
- What should be included in discharge teaching?

بالعربية

- ما خط الأساس للمريض؟ وما الذي تغيّر؟
- ما العلامات التي تدل على congestion؟ وأيّها على poor perfusion؟
- ما الـ trigger المحتمل؟ وما التقييم الإضافي المطلوب الآن؟
- ما الأولوية التمريضية والتدخلات المتوقعة؟
- ما الاستجابة التي تثبت التحسّن؟ وما الذي يستوجب التصعيد الفوري؟
- ماذا يجب أن يتضمّن تثقيف الخروج؟
